

## **VEET Participants visit to Energy Training Centre**

On Friday 19<sup>th</sup> June Victorian Energy Education and Training (VEET) program participants visited the Energy Training Centre in Chadstone and were given an insight into the life of a linesman.

During the visit Energy Training Centre and SP AusNet employees gave a presentation to the VEET participants on the various career and pathway options available within the energy business sector. Current SP AusNet trainees also spoke to the students about working as a linesman and technical officer.

Students were then given a tour of the facilities at the Energy Training Centre. The Energy Training Centre is the major industry-specific accredited training provider for the utility sectors of Electricity, Gas and Telecommunications in Australia. Students were shown examples of live and simulated linesman training, including the opportunity to ride on a cherry picker in order to see what it feels to work at heights.

Thank you to the Electrical Training Centre and SP AusNet for giving our VEET participants the opportunity to visit a training environment and have employees explain the career opportunities linked to the energy industry.

The excursion was organised by Outer Eastern LLEN and Baw Baw LLEN and supported by SP AusNet. For further enquiries about the VEET project, contact: Bianca Spence, VEET Coordinator, Outer Eastern LLEN, Phone: 9737 9024 or email: [bspence@oellen.org.au](mailto:bspence@oellen.org.au)
