PROGRAM OUTLINE

Join us for an innovative work experience program that shakes up the old way of doing work experience.

Spend two days onsite at industry giant PACCAR, where you will tour their facilities, solve a unique work problem and present your solutions to PACCAR employees and participate in an interactive interview practice workshop.

Spend two more days at Swinburne KIOSC, where you will use their technology and equipment and collaborate with other students and KIOSC staff to solve real-world problems.

This is a unique opportunity to experience the world of work.

EXPECTATIONS

- Arrive on time and dress appropriately for a professional work environment.
- Follow all safety instructions and procedures provided during the safety briefing.
- Listen and learn from the PACCAR and KIOSC staff.
- Participate actively in all challenges.
- Respect PACCAR and KIOSC employees, facilities, and equipment at all times.
- Present your group project in a professional and articulate manner.
- Collaborate effectively with other students and KIOSC staff to solve real-world problems.
